Report

Manager's Lowdown

The RFP has been sent off to the attorney for her comments, corrections and additions. Once she has completed her evaluation it will be sent off to the RFP committee for one last look. Once they approve it, it will be sent off to the Steering Committee. Once all of their thoughts have been considered and acted on it will be delivered to interested ILS vendors. Then it's simply a matter of waiting for their questions and responses. We have nearly taken the first major step towards completing the process of determining if we want to switch to another vendor.

The evaluation of BlueCloud Analytics continues. Chanel has spent many hours creating reports with little formal instruction. She has run into several brick walls as far as report creation is concerned. One of them, the elusive hold-to-item ratio report, has not been able to be produced. SirsiDynix is now saying we will have to give them money to make the report work. While the product does appear to be slowly improving it appears to still have a ways to go before it is ready for prime time.

An upgrade to Enterprise will be installed on January 11th around midnight. This upgrade is updating some of the HTML and CSS coding which will (more than likely) mean Chanel will have to make some code modifications before Enterprise can be brought back online. Without knowing all of the changes that will take place with the upgrade it is difficult to anticipate how much time Chanel will need to modify the code.

The major feature that will be added is the ability for the patron to change some of their personal information in their account. Specifically they can change email address and phone number. This feature does have to be enabled so don't worry about having to deal with patron changes immediately after the upgrade.

The publication date will also be more relevant in the search results. The update places greater emphasis on publication date in their search algorithms. Items that have a range of publication dates will have greater emphasis placed on the items published more recently.

I will be presenting on the success of the YLN at the Arizona Community College Director's of Libraries conference in Mesa on December 10th and 11th. We have a lot to be proud of with the YLN and I look forward to sharing our successes with others. It will also be a great opportunity to network with community college directors from all over the state.

The State Library announced at an AzLA meeting that they were going to start reviewing proposals for a new statewide subscription database package. They are going to try and leave room in the new contract for colleges and schools to ride off the contract. However, they will not be able to access the subscription database services at no charge as the public libraries will be able to. I will update you on what was decided once I have more information.

Respectfully Submitted,

Corey Christians
Library Network Manager

Prioritization

Priority One: Resolve Current Helpdesk Requests

A help desk request, or work order, is the submission of a problem that one encounters during the normal operation of a YLN service. Requests are generally submitted via e-mail to help@yln.info. If a request is submitted via telephone, then a YLN staff person will create the request for the submitter. Help desk requests will always be our highest priority because in some cases a member library employee cannot complete a work function until the issue is resolved.

Total requests submitted: 52

Total requests resolved: 50

Total unresolved requests opened this month: 3

Total requests still open: 29

Priority Two: Draft and RFP for a new Integrated Library System

The time is here to start looking into purchasing a new Integrated Library System (ILS). Stage one is sending out the RFP.

Goal: Create a request for proposal for a new integrated library system.

Project Lead: Corey Christians

Progress:

- Install a wiki that can be used to gather information about what we want in a new ILS
- Test the wiki to make sure it works
- Send instructions out on how to use it
- Start having meetings to determine what we want in a new ILS
- Compile the results and add them to the wiki
- Form an RFP committee
- Survey the current ILS market
- Start work on the RFP
- Create a draft RFP
- Send the RFP out to the membership for comment
- Create the final draft
- Seek steering committee approval
- Distribute to all interested vendors

Priority Three: Migrate vhosts from VMWare ESXi to Microsoft HyperV

Currently several servers are running virtually on a VMWare ESXi virtual host. Some of them include the YLN website, RPA, EZproxy, DNS, and many many more. The YLN will be switching to Microsoft HyperV in order to increase data redundancy and to increase support availability. The MIS Operations team also uses HyperV which will allow deep support with this product. This will require purchasing a new server, migrating current virtual servers and converting existing virtual hosts to HyperV.

- Determine if HyperV will work in our Linux/Windows environment
- Spec out a new server that can house all existing virtual servers as well as any future servers.
- Receive approval to purchase the new server
- Order new server
- Receive the new server
- Migrate existing ESXi virtual servers to HyperV
- Wipe ESXi servers and install HyperV
- Set up the new server to back up to the old servers

Priority Four: Install BlueCloud Analytics

Currently the YLN uses Director's Station for all web-based statistical reporting. BlueCloud Analytics is meant to be a replacement for Director's Station. However, the products differ greatly. Because of this we have been holding off migrating to the new product until its functionality matches Director's Station.

Goal: Complete the transition to BlueCloud Analytics

Project Lead: Chanel Wheeler

Progress:

- Upgrade our BlueCloud framework to accommodate analytics
- Install BlueCloud Analytics.
- Create several test reports to verify functionality
- Create templates to match DS reporting
- Train member libraries once transitioned to BCA

Note concerning prioritization: The priority of projects may shift as individual portions are completed.

Prioritization

Priority Five: YLN Strategic Plan

While the YLN has been very good about technology planning, the overall vision and strategy of the YLN has been more elusive. The Executive Committee has been working on developing a vision, mission, and strategic plan.

Goal: Develop a strategic plan that will bring the YLN to the year 2025.

Project Lead: Corey Christians

Progress:

- Create a way to implement the plan
- Get approval for the updated plan
- Change the bylaws if necessary
- Distribute the new plan

Priority Six: Gather State Data Report Statistics

The public libraries have to submit a report containing statistical information requested by the Arizona State Library and Archives. The YLN provides some of the statistical information for the report to the membership to make sure information is consistently reported.

Goal: Gather the appropriate statistics and create a report detailing the information necessary for the Arizona State Library's data report.

Project Lead: Corey Christians

Progress:

- Read through the current SDR instructions
- Note which statistical measures have changed
- Verify the instructions match the web input form.
- Gather statistical information
- Update instructions for member libraries in the YLN SDR report.
- Input updated information
- Verify updated information is correct
- Send out final copy to the YLN membership
- Answer any resulting questions.

Priority Seven: SirsiDynix Supported Servers End-of-Life

After a certain amount of time vendors will no longer support hardware because it is considered outmoded. In other words parts become hard to find because they are no longer manufactured. Our servers will have this problem as of May 31st, 2016.

Goal: Have a solution in place to deal with outmoded hardware.

Project Lead: Corey Christians

Progress:

- Determine differing solutions to the problem considering we may be on a new ILS in two years.
- Present the solutions to the Executive Committee
- Present the solutions to the Steering Committee
- Analyze which option is superior based on cost and stability
- Purchase any equipment that is required
- Migrate data and go into production

Priority Eight: Implement BC Visibility

BlueCloud Visibility is a new product by SirsiDynix which converts our online catalog to a linked data model. This will make our records visible in search engines such as Google.

Goal: Implement BC Visibility

Project Lead: Chanel Wheeler

Progress:

- Receive a quote from SirsiDynix
- Get approval for the purchase
- Receive an implementation plan from SD
- Offload our bibliographic database to SD to be processed.
- Test the implementation.
- Go Live and an invoice sent to YCFLD
- Advertise the new service

Prioritization

Priority Nine: Implement Blue Cloud Cataloging

Blue Cloud Cataloging will allow library staff to access Symphony cataloging from a web browser. The new product should have significant user interface improvements above the cataloging section in Work Flows.

Goal: Fully implement Blue Cloud Cataloging (BCC)

Project Lead: Chanel Wheeler

- Upgrade Web Services so we can use BCC
- Configure Web Services for the new service
- Test BCC to see how it works
- Create documentation
- Activate it for a test library to see how it works in a production environment
- Conduct a training session for all YLN users
- Activate it for the remaining libraries

Completed Projects CY15

- Value of Services for YLN
- Add MUHS
- Complete overall strategic plan
- Upgrade CircIT NXT
- Create OPAC Enhancements
 - Make it so the UPC retrieves cover art
 - Make it so ICat1 displays item format
 - Make it so second UPC shows cover art
 - Make it so the book river shows cover art
 - Determine if online registration is feasible
 - Fix reserve item searching for YCV
 - Add icons for ICat1s that don't have them
 - Add (item) details button to search results
 - Add the ability to add local cover art
 - Always have location listings expand
- Move Servers to County Admin Building
- Complete the LSTA Synrg 2 grant process
- Upgrade RPA
- Pay the SD maintenance bill

Cancelled/Postponed Projects CY15

- Install the Bookmyne Mobile App
