

February 2015

Children's Computer Area at CVPL

Yavapai Library Network

Monthly Report

Manager's Lowdown

The Request for Proposal (RFP) Committee has made great progress over the last month. All of the current progress is visible on the YLN wiki at the following location:

http://wiki.yln.info/doku.php?id=2015_rfp_ils

The RFP Committee decided the best approach is to take a function concept and tackle all the issues related to that function at a single meeting. So far two function concepts have been tackled:

Holds

http://wiki.yln.info/doku.php?id=2015_rfp_ils_holds

User Records

http://wiki.yln.info/doku.php?id=2015_rfp_ils_circulation_user_records

Each of the areas is organized on the wiki after each meeting. Once organized it will be added to the overall RFP. As you can see a considerable amount of work has already been completed and we have barely started. I am very pleased with the results so far and I truly believe we will have a document we can all be proud of in the end.

Work continues on converting the virtual servers from VMWare ESXi to Microsoft HyperV. So far one entire virtual host has been transferred over. Chanel and Jim have done a fabulous job converting over the virtual servers.

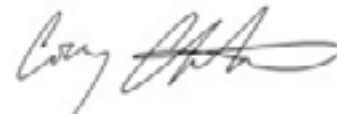

The rough draft of the annual report has been completed. I changed the format somewhat and updated all of the graphics to be modern. Hopefully all of you like the changes. I have also added a lot more information which increased the size of the report by four pages. The need for statistics and the addition

of several infographics necessitated the size increase. Currently the final draft is being proofed. Once the last draft is back to me I will make the edits and send it out to the library directors for any changes. Once those changes are incorporated the annual report will be off to the printers.

Next month you will be receiving your annual billing from the Library District. If you have not received your bill by the end of the month please contact me or the District office and another bill will be sent out.

Progress has been made on the server room transfer from PPL to the County data center on Fair Street. New networking equipment has been approved and ordered. It should be in next month. The County Board of Supervisors also approved the new Internet line. I will let you know when the new line will be installed and when the servers will be moved. Keep in mind that when the servers are moved from PPL all YLN services will be offline until the transition is complete. Generally speaking the entire system should be offline for about 12 hours barring any hardware failures that may occur as a result of transit. If such a failure occurs whichever piece of hardware fails will have to be repaired which may take some time.

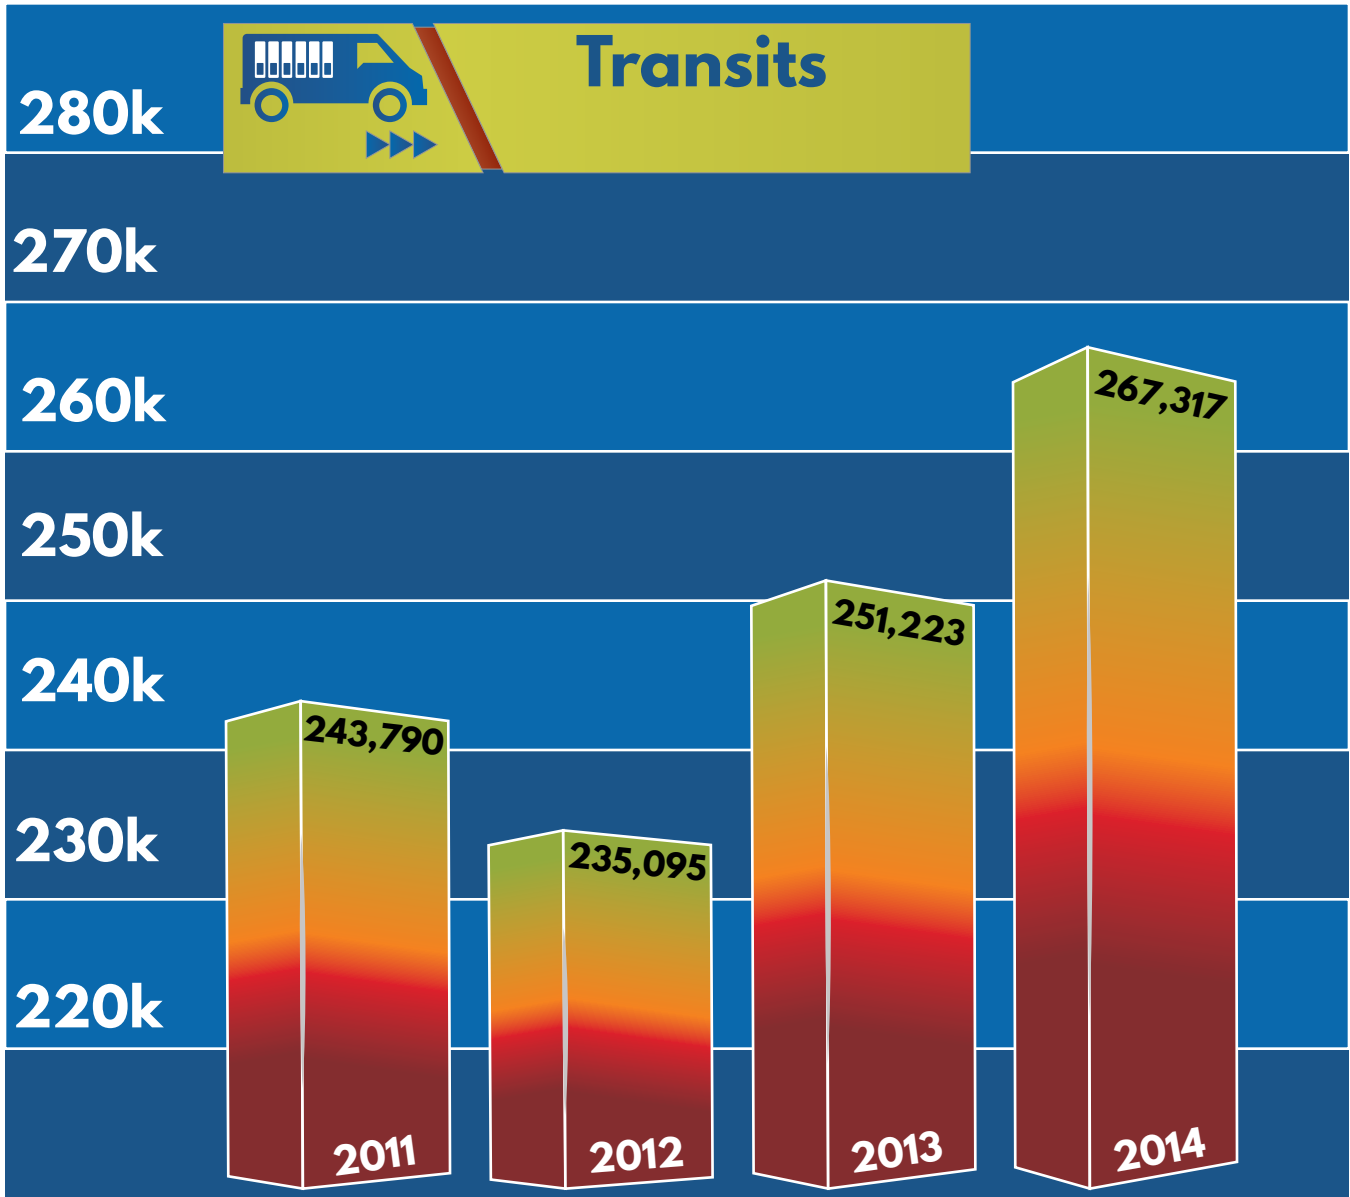

Respectfully Submitted,

Corey Christians

Library Network Manager

Monthly Infographic

Prioritization

Priority One: Resolve Current Helpdesk Requests

A help desk request, or work order, is the submission of a problem that one encounters during the normal operation of a YLN service. Requests are generally submitted via e-mail to help@yln.info. If a request is submitted via telephone, then a YLN staff person will create the request for the submitter. Help desk requests will always be our highest priority because in some cases a member library employee cannot complete a work function until the issue is resolved.

Total requests submitted: 77

Total requests resolved: 80

Total unresolved requests opened this month: 5

Total requests still open: 33

Priority Two: Draft and RFP for a new Integrated Library System

The time is here to start looking into purchasing a new Integrated Library System (ILS). Stage one is sending out the RFP

Goal: Create a request for proposal for a new integrated library system.

Project Lead: Corey Christians

Progress:

- Install a wiki that can be used to gather information about what we want in a new ILS
- Test the wiki to make sure it works
- Send instructions out on how to use it
- Start having meetings to determine what we want in a new ILS
- Compile the results and add them to the wiki
- Form an RFP committee
- Survey the current ILS market
- Start work on the RFP
- Create a draft RFP
- Send the RFP out to the membership for comment
- Create the final draft
- Seek steering committee approval
- Distribute to all interested vendors

Priority Three: Migrate vhosts from VMWare ESXi to Microsoft HyperV

Currently several servers are running virtually on a VMWare ESXi virtual host. Some of them include the YLN website, RPA, EZproxy, DNS, and many many more. The YLN will be switching to Microsoft HyperV in order to increase data redundancy and to increase support availability. The MIS Operations team also uses HyperV which will allow deep support with this product. This will require purchasing a new server, migrating current virtual servers and converting existing virtual hosts to HyperV.

- Determine if HyperV will work in our Linux/Windows environment
- Spec out a new server that can house all existing virtual servers as well as any future servers.
- Receive approval to purchase the new server
- Order new server
- Receive the new server
- Migrate existing ESXi virtual servers to HyperV
- Wipe ESXi servers and install HyperV
- Set up the new server to back up to the old servers

Priority Four: Install the BookMyne Mobile App

There has been repeated demand for a mobile application for the OPAC. SirsiDynix has a product called BookMyne that serves this purpose.

Goal: Install the BookMyne mobile app

Project Lead: Corey Christians

Progress:

- Determine if BC rewards can be applied
- Request a quote from SirsiDynix
- Get approval for the purchase
- Fill out implementation form
- Configure the software
- Install a test instance
- Find a library to run a beta test
- Configure for the remaining libraries
- Put into production

Note concerning prioritization: The priority of projects may shift as individual portions are completed.

Prioritization

Priority Five: YLN Strategic Plan

While the YLN has been very good about technology planning, the overall vision and strategy of the YLN has been more elusive. The Executive Committee has been working on developing a vision, mission, and strategic plan.

Goal: Develop a strategic plan that will bring the YLN to the year 2025.

Project Lead: Corey Christians

Progress:

- Develop a survey to send out to the membership.
- Use the results to make a list of discussion areas
- Start brainstorming about strategy/mission/vision
- Develop a final strategic plan
- Get approval of the plan

Priority Six: Move Servers from PPL to County Admin Building

The YLN servers have been housed at PPL since Yavapai County took over administration of the YLN in 2011. The servers need to be moved to the County data center.

Goal: Transfer all YLN equipment from the Prescott Public Library to the County Administration building.

Project Lead: Corey Christians

Progress:

- Ensure e-rate applies to the new line
- Get YCFLD BoD approval to purchase the line
- Work with Century Link to set a date to install an Internet line at Fair St.
- Make YLN members aware of the transfer date
- Let the media know we will be down that day
- Coordinate with facilities to move the equipment
- Coordinate with MIS Networking to reconfigure networking equipment
- Bring the systems back online

Priority Seven: Upgrade to Circ-IT NXT (RFID libraries only)

Our current version of Circ-IT will no longer be enhanced. Tech Logic is encouraging everyone to move to their new Circ-IT NXT platform

Goal: Switch from Circ-IT to Circ-IT NXT

Project Lead: Jim Lowman

Progress:

- Fill out the configuration form
- Create a virtual server for NXT
- Coordinate with TL to install the new software
- Configure the new interface
- Configure receipts
- Configure a beta site (YCFLD Central Office)
- Put into production for YCFLD
- Configure a public beta site (PVPL)
- Put into production for PVPL
- Put into production for PCL after beta test
- Configure and transfer remaining libraries

Priority Eight: OPAC Enhancements

The new OPAC has solved several problems that eLibrary had; however, problems still exist which need to be ironed out. The list of these issues is below.

Goal: Improve the catalog experience for library users.

Project Lead: Chanel Wheeler

Progress:

- Make it so the UPC retrieves cover art
- Make it so ICat1 displays item format
- Make it so second UPC shows cover art
- Make it so the book river shows cover art
- Determine if online registration is feasible
- Fix reserve item searching for YCV
- Add icons for ICat1s that don't have them
- Add (item) details button to search results
- Add the ability to add local cover art
- Always have location listings expand

Prioritization

Priority Nine: Value of Services for YLN

The YLN annual report was the first step in making the decision makers for our governing authorities aware of all the YLN does for them. The second step is demonstrating the incredible value of the YLN. The YLN, in conjunction with the YCFLD, will create a comprehensive Return on Investment (ROI) study to show how valuable the YLN is to our members. It will be submitted with the next annual report. Work will start on it now.

Goal: Determine the value of some or all library services for Yavapai County

Project Lead: Corey Christians

- Receive proposal from BERK
- Present proposal to Management Committee
- Sign contract
- Have kickoff meeting
- Gather statistics
- Analyze compiled results from BERK
- Approve final study

Priority Ten: Add MUHS

Mingus Union High School is the latest member of the YLN. Their migration is funded by an LSTA grant.

Goal: Add MUHS as a full member of the YLN.

Project Lead: Corey Christians

Progress:

- Pursue an LSTA grant
- Have initial profiling session with MUHS staff
- Receive the funds from the LSTA grant
- Order the agency from SirsiDynix
- Add agency parameters and rules in Symphony
- Begin cataloging the collection
- Add students
- Train MUHS staff
- Begin circulating

Completed Projects CY14

- YLN FY13-14 Annual Billing
- Install PURL server
- Complete the Annual Report
- New Helpdesk Ticketing System
- Replace Blue Sockets in YCFLD Libraries

Cancelled/Postponed Projects CY14

- Install Blue Cloud Analytics (Will reconsider in CY15, the product is currently in beta)
- E-Materials replacement for Overdrive
- Fully Implement a Learning Management System
