Chess in the Library at PMH

Yavapai Library Network

Monthly Report

Manager's Lowdown

SirsiDynix has finally gotten back to us about Bookmyne+. According to SirsiDynix Bookmyne+ is now ready for prime time. Bookmyne+ is a mobile application that will allow patrons to find YLN libraries on their cell phone as well as use the online catalog. Other features are integrated into it as well such as a Google calendar if your library has one. I caution you to not get too excited about this product. It does give another entry point into the catalog; however, the product does have its shortcomings. In other words, don't get your hopes too high on well this product will function.

The last library has switched over the CircIT NXT system. When the timing is appropriate Jim will decommission the old CircIT server. I hope all of you feel as I do that Jim has done a wonderful job communicating with all of you, making your needs known to Tech Logic, and ensuring Tech Logic meets your needs. Some technical support issues remain but so far this latest upgrade to NXT seems to have addressed our concerns. Thanks again to Jim and to all of you for staying on top of NXT.

The Annual report is complete and will be going to the printers next month. A special thanks to Chanel for all her editing. I hope you all get a chance to take a look at it and see the performance of the YLN over the last calendar year. Each library will be sent at least one copy of the annual report. The Management Committee decided to have the report printed on a fiscal year basis in the future. This means the next Annual Report will use statistics from July 1st to June 30th rather than from January 1st to December 31st. The 2015 Annual Report will not be released until August or September of 2016.

The RFP Committee is still working hard on determining the requirements of the new ILS. The last meeting of the RFP Committee for the RFP creation

phase will be the end of July. If you would like to add something to the conversation please go to the wiki, log in, and enter your comments. The page you need to go to is:

http://wiki.yln.info/doku.php?id=ils_member_comments

Chanel has been working hard adding various book awards into the MARC records of the titles that have won those awards. So far she has completed the Caldecott Award and Newbery Award winners going back to 1927. Next she will be working on the Pura Belpre, Coretta Scott King, and Michael L. Printz winners. She has also been cleaning up the MARC records.

The AZCODI meeting will be on Friday, May 15th at Flagstaff Public Library. So far not very many people have signed up. If you have the opportunity please sign up to go the meeting. This is your opportunity to hear about what SirsiDynix development plans are and what they are just now releasing. It's also your opportunity to network with other libraries and ask questions of SirsiDynix.

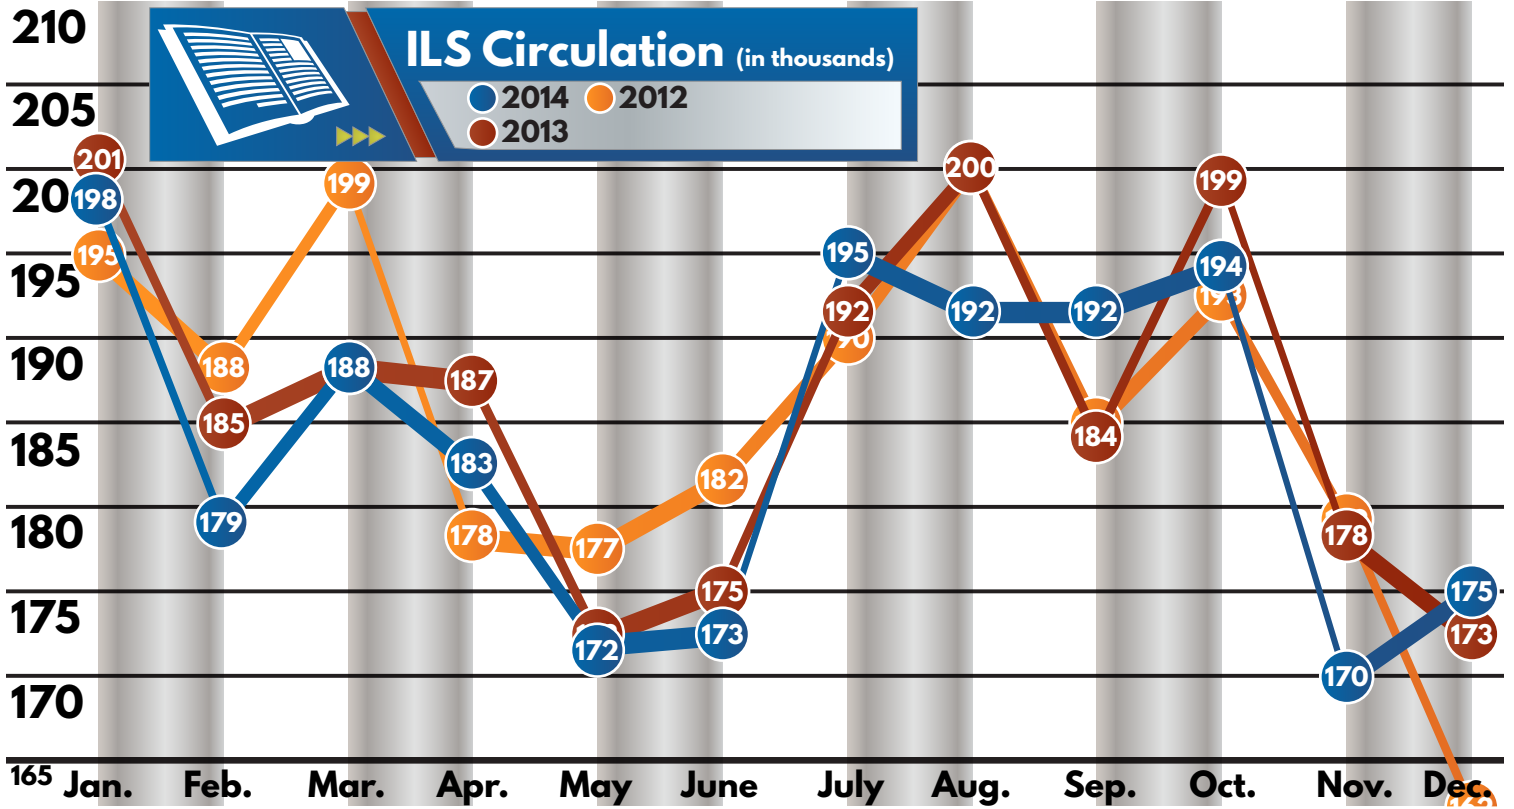

Respectfully Submitted,

Corey Christians

Library Network Manager

Monthly Infographic

Prioritization

Priority One: Resolve Current Helpdesk Requests

A help desk request, or work order, is the submission of a problem that one encounters during the normal operation of a YLN service. Requests are generally submitted via e-mail to help@yln.info. If a request is submitted via telephone, then a YLN staff person will create the request for the submitter. Help desk requests will always be our highest priority because in some cases a member library employee cannot complete a work function until the issue is resolved.

Total requests submitted: 112

Total requests resolved: 105

Total unresolved requests opened this month: 5

Total requests still open: 31

Priority Two: Draft and RFP for a new Integrated Library System

The time is here to start looking into purchasing a new Integrated Library System (ILS). Stage one is sending out the RFP

Goal: Create a request for proposal for a new integrated library system.

Project Lead: Corey Christians

Progress:

- Install a wiki that can be used to gather information about what we want in a new ILS
- Test the wiki to make sure it works
- Send instructions out on how to use it
- Start having meetings to determine what we want in a new ILS
- Compile the results and add them to the wiki
- Form an RFP committee
- Survey the current ILS market
- Start work on the RFP
- Create a draft RFP
- Send the RFP out to the membership for comment
- Create the final draft
- Seek steering committee approval
- Distribute to all interested vendors

Priority Three: Migrate vhosts from VMWare ESXi to Microsoft HyperV

Currently several servers are running virtually on a VMWare ESXi virtual host. Some of them include the YLN website, RPA, EZproxy, DNS, and many many more. The YLN will be switching to Microsoft HyperV in order to increase data redundancy and to increase support availability. The MIS Operations team also uses HyperV which will allow deep support with this product. This will require purchasing a new server, migrating current virtual servers and converting existing virtual hosts to HyperV.

- Determine if HyperV will work in our Linux/Windows environment
- Spec out a new server that can house all existing virtual servers as well as any future servers.
- Receive approval to purchase the new server
- Order new server
- Receive the new server
- Migrate existing ESXi virtual servers to HyperV
- Wipe ESXi servers and install HyperV
- Set up the new server to back up to the old servers

Priority Four: Install the BookMyne Mobile App

There has been repeated demand for a mobile application for the OPAC. SirsiDynix has a product called BookMyne that serves this purpose.

Goal: Install the BookMyne mobile app

Project Lead: Corey Christians

Progress:

- Determine if BC rewards can be applied
- Request a quote from SirsiDynix
- Get approval for the purchase
- Fill out implementation form
- Configure the software
- Install a test instance
- Find a library to run a beta test
- Configure for the remaining libraries
- Put into production

Note concerning prioritization: The priority of projects may shift as individual portions are completed.

Prioritization

Priority Five: YLN Strategic Plan

While the YLN has been very good about technology planning, the overall vision and strategy of the YLN has been more elusive. The Executive Committee has been working on developing a vision, mission, and strategic plan.

Goal: Develop a strategic plan that will bring the YLN to the year 2025.

Project Lead: Corey Christians

Progress:

- Develop a survey to send out to the membership.
- Use the results to make a list of discussion areas
- Start brainstorming about strategy/mission/vision
- Develop a final strategic plan
- Get approval of the plan

Priority Six: Move Servers from PPL to County Admin Building

The YLN servers have been housed at PPL since Yavapai County took over administration of the YLN in 2011. The servers need to be moved to the County data center.

Goal: Transfer all YLN equipment from the Prescott Public Library to the County Administration building.

Project Lead: Corey Christians

Progress:

- Ensure e-rate applies to the new line
- Get YCFLD BoD approval to purchase the line
- Work with Century Link to set a date to install an Internet line at Fair St.
- Make YLN members aware of the transfer date
- Let the media know we will be down that day
- Coordinate with facilities to move the equipment
- Coordinate with MIS Networking to reconfigure networking equipment
- Bring the systems back online

Priority Seven: Upgrade to Circ-IT NXT (RFID libraries only)

Our current version of Circ-IT will no longer be enhanced. Tech Logic is encouraging everyone to move to their new Circ-IT NXT platform

Goal: Switch from Circ-IT to Circ-IT NXT

Project Lead: Jim Lowman

Progress:

- Fill out the configuration form
- Create a virtual server for NXT
- Coordinate with TL to install the new software
- Configure the new interface
- Configure receipts
- Configure a beta site (YCFLD Central Office)
- Put into production for YCFLD
- Configure a public beta site (PVPL)
- Put into production for PVPL
- Put into production for PCL after beta test
- Configure and transfer remaining libraries

Priority Eight: OPAC Enhancements

The new OPAC has solved several problems that eLibrary had; however, problems still exist which need to be ironed out. The list of these issues is below.

Goal: Improve the catalog experience for library users.

Project Lead: Chanel Wheeler

Progress:

- Make it so the UPC retrieves cover art
- Make it so ICat1 displays item format
- Make it so second UPC shows cover art
- Make it so the book river shows cover art
- Determine if online registration is feasible
- Fix reserve item searching for YCV
- Add icons for ICat1s that don't have them
- Add (item) details button to search results
- Add the ability to add local cover art
- Always have location listings expand

Prioritization

Priority Nine: Implement Blue Cloud Cataloging

Blue Cloud Cataloging will allow library staff to access Symphony cataloging from a web browser. The new product should have significant user interface improvements above the cataloging section in Work Flows.

Goal: Fully implement Blue Cloud Cataloging (BCC)

Project Lead: Chanel Wheeler

- Upgrade Web Services so we can use BCC
- Configure Web Services for the new service
- Test BCC to see how it works
- Create documentation
- Activate it for a test library to see how it works in a production environment
- Conduct a training session for all YLN users
- Activate it for the remaining libraries

Completed Projects CY15

- Value of Services for YLN
- Add MUHS

Cancelled/Postponed Projects CY15
