

Yavapai Library Network

May
2018
Monthly
Report

Manager's Lowdown

Good Day YLN Members,

Is it just me or did May just fly by? It's hard to believe it's already June—I guess time flies when you're having fun!

I am pleased to announce that we have completed our interview process and have hired our top candidate, Eric Petersen, to fill the Network Cataloger position. Eric has been Bibliographic Services Supervisor for the High Plains Library District in Greeley, Colorado for the past 10 plus years and we look forward to introducing him and getting our cataloging services up and running. He'll be starting in July!

Also, I am happy to report that we have negotiated with SirsiDynix to use our remaining 2017/18 consulting credits to purchase the Enterprise Kid's Catalog. Chanel will be working with SirsiDynix to roll it out sometime in August. If you haven't had the chance to check it out, you can find a sample catalog at http://sde15.ent.sirsi.net/client/en_US/kidcat/. It will be available to all Network libraries. If you have any questions, feel free to give me a call.

This month, we also released an RFP for a new courier, as Yavapai Courier Service informed us that they would not be renewing their contract. The Call for Bids can be found on the Yavapai County web site. The bid deadline is June 14th.

In other news, Chanel is still working with SirsiDynix to install our SSL certificates, and our DPLA project is still on hold as we continue to wait for some fixes to Content Manager. Tech Logic has set the week of July 16th aside to install our AMH in Warehouse C. All the Network school library members except Tri-City Prep have closed for the summer, so no holds can be placed on any of their materials until August.

Also, I sent everyone an "under construction" Strategic Plan for your consideration. Please take a look at it and complete the survey included in the email by June 11th. It's vital that I get your feedback as this plan will be the Network roadmap for the next 3 years. If you have any questions or want to discuss any part of the plan, you know how to reach me.

And on that note, carry on!

~ Judy

Member News

Geology of the Prescott Region

June 16 at 2 pm in the West Gallery

Prioritization

Priority One: Resolve Current Helpdesk Requests

A help desk request, or work order, is the submission of a problem that one encounters during the normal operation of a YLN service. Requests are generally submitted via e-mail to help@yln.info. If a request is submitted via telephone, then a YLN staff person will create the request for the submitter. Help desk requests will always be our highest priority because in some cases a member library employee cannot complete a work function until the issue is resolved.

Total requests submitted: 79

Total requests resolved: 75

Total unresolved requests opened this month: 4

Total requests still open: 26

Priority Two: TechLogic Contract and Purchase of AMH

Create new TechLogic contract and order an AMH for central sorting facility.

Goal: Create a contract for an RFID/AMH system.

Project Lead: Judy Poe

Progress:

- Review contract
- Negotiate CircIT unlimited site license
- Negotiate AMH service programs/preventative maintenance contract
- Work with County attorney to draft master contract
- Combine contracts into one master contract
- Have Executive Committee review contract
- Have Steering Committee approve contract
- Negotiate with TechLogic over final contract
- Upon contract approval by both parties, order AMH
- Install AMH
- Put AMH into production

Priority Three: YLN Strategic Plan

While the YLN has been very good about technology planning, the overall vision and strategy of the YLN has been more elusive. The Executive Committee has been working on developing a vision, mission, and strategic plan.

Goal: Develop a strategic plan that will bring the YLN to the year 2025.

Project Lead: Judy Poe

Progress:

- Review strategic plan
- Incorporate feedback into the plan
- Get approval for the updated plan
- Change the bylaws if necessary
- Distribute the new plan

Priority Four: Implement BC Visibility

BlueCloud Visibility is a new product by SirsiDynix which converts our online catalog to a linked data model. This will make our records visible in search engines such as Google.

Goal: Implement BC Visibility

Project Lead: Chanel Wheeler

Progress:

- Receive a quote from SirsiDynix
- Get approval for the purchase
- Receive an implementation plan from SD
- Offload our bibliographic database to SD to be processed.
- Test the implementation.
- Go Live
- Advertise the new service

Note concerning prioritization: The priority of projects may shift as individual portions are completed.

Prioritization

Priority Five: Implement Blue Cloud Cataloging

Blue Cloud Cataloging will allow library staff to access Symphony cataloging from a web browser. The new product should have significant user interface improvements above the cataloging section in WorkFlows.

Goal: Fully implement Blue Cloud Cataloging (BCC)

Project Lead: Chanel Wheeler

- Upgrade Web Services so we can use BCC
- Configure Web Services for the new service
- Test BCC to see how it works
- Create documentation
- Activate it for a test library to see how it works in a production environment
- Conduct a training session for all YLN users
- Activate it for the remaining libraries

Completed Projects CY17

Cancelled/Postponed Projects CY17

Priority Six: Testing SimplyE

Partnering with the Digital Public Library of America (DPLA), the YLN will be testing SimplyE which allows patrons to view all our e-materials at one site.

Goal: Fully implement SimplyE at several pilot libraries

Project Lead: Chanel Wheeler

- Choose libraries to be the pilots
- Have pilot libraries test the DPLA Exchange
- Have pilot libraries test Circ Manager
- Have pilot libraries test SimplyE
- Give feedback to DPLA
- Roll out to all YLN libraries
