A Full House at PMH

Yavapai Library Network

Monthly Report

Yavapai
Library
Network

Manager's Lowdown

The Steering Committee agreed old lost items and bills should not be hanging around the system for more than seven years. As a result of this decision lost items that have been in the system for more than seven years will be purged.

This will allow many patrons with lost items to be purged from the system as well. Some of these items have been in the system for decades. Removing them will allow for a much cleaner database.

Unfortunately the process of removing the old items will update the "lastuse" date on the patron record. This will result in patrons hanging around the database that should be deleted. There does not seem to be a way around the "lastuse" date getting updated.

The Steering Committee also decided to postpone our implementation of Bookmyne+. The product has two major flaws which are preventing its implementation.

- 1) The search uses the old eLibrary search engine which provided inaccurate search results.
- 2) Bookmyne works by having the patron select a library they would like to search. Once they are in that library they can only search that library's catalog. The only way to search the entire Network is to create a library called "Yavapai Library Network". The patron would then have to know to search that library when they want to search the entire YLN.

There also seems to be a trend away from using apps when a website will work just as well. Modern websites adapt to the size of the screen of the device they are accessed from. SirsiDynix is working on adapting this technology to Enterprise. Once they do Enterprise will have much of the same functionality as Bookmyne.

The 2015-2016 school year is upon us once again. Holds will be enabled for all school libraries. We have also lost two of our K-12 libraries due to closures. Washington Traditional School and Miller Valley School were closed by the Prescott Unified School District due to budget cuts. However, our newest member, Mingus Union High School will start delivering books. Not suprisingly, their library code is MUHS. If you see this code it is a legitimate code to send items to and receive items from.

I have created a one page document explaining some of the more helpful services we have for the school libraries. I will be modifying it for public library use in the near future. The document is available at:

<http://portal.yln.info/?q=node/3>

So far initial reactions to the new document have been positive. The more that we can get the word out to the public of how YLN-provided services can help them the better the chances they will use the library. If you have any ideas about how the YLN can get the public excited about libraries please feel free to let me know.

Respectfully Submitted,

Corey Christians
Library Network Manager

Monthly Infographic

Prioritization

Priority One: Resolve Current Helpdesk Requests

A help desk request, or work order, is the submission of a problem that one encounters during the normal operation of a YLN service. Requests are generally submitted via e-mail to help@yln.info. If a request is submitted via telephone, then a YLN staff person will create the request for the submitter. Help desk requests will always be our highest priority because in some cases a member library employee cannot complete a work function until the issue is resolved.

Total requests submitted: 97

Total requests resolved: 98

Total unresolved requests opened this month: 3

Total requests still open: 46

Priority Two: Draft and RFP for a new Integrated Library System

The time is here to start looking into purchasing a new Integrated Library System (ILS). Stage one is sending out the RFP.

Goal: Create a request for proposal for a new integrated library system.

Project Lead: Corey Christians

Progress:

- Install a wiki that can be used to gather information about what we want in a new ILS
- Test the wiki to make sure it works
- Send instructions out on how to use it
- Start having meetings to determine what we want in a new ILS
- Compile the results and add them to the wiki
- Form an RFP committee
- Survey the current ILS market
- Start work on the RFP
- Create a draft RFP
- Send the RFP out to the membership for comment
- Create the final draft
- Seek steering committee approval
- Distribute to all interested vendors

Priority Three: Migrate vhosts from VMWare ESXi to Microsoft HyperV

Currently several servers are running virtually on a VMWare ESXi virtual host. Some of them include the YLN website, RPA, EZproxy, DNS, and many many more. The YLN will be switching to Microsoft HyperV in order to increase data redundancy and to increase support availability. The MIS Operations team also uses HyperV which will allow deep support with this product. This will require purchasing a new server, migrating current virtual servers and converting existing virtual hosts to HyperV.

- Determine if HyperV will work in our Linux/Windows environment
- Spec out a new server that can house all existing virtual servers as well as any future servers.
- Receive approval to purchase the new server
- Order new server
- Receive the new server
- Migrate existing ESXi virtual servers to HyperV
- Wipe ESXi servers and install HyperV
- Set up the new server to back up to the old servers

Priority Four: Install the BookMyne Mobile App

There has been repeated demand for a mobile application for the OPAC. SirsiDynix has a product called BookMyne that serves this purpose.

Goal: Install the BookMyne mobile app

Project Lead: Corey Christians

Progress:

- Determine if BC rewards can be applied
- Request a quote from SirsiDynix
- Get approval for the purchase
- Fill out implementation form
- Configure the software
- Install a test instance
- Find a library to run a beta test
- Configure for the remaining libraries
- Put into production

Note concerning prioritization: The priority of projects may shift as individual portions are completed.

Prioritization

Priority Five: YLN Strategic Plan

While the YLN has been very good about technology planning, the overall vision and strategy of the YLN has been more elusive. The Executive Committee has been working on developing a vision, mission, and strategic plan.

Goal: Develop a strategic plan that will bring the YLN to the year 2025.

Project Lead: Corey Christians

Progress:

- Create a way to implement the plan
- Get approval for the updated plan
- Change the bylaws if necessary
- Distribute the new plan

Priority Six: Move Servers from PPL to County Admin Building

The YLN servers have been housed at PPL since Yavapai County took over administration of the YLN in 2011. The servers need to be moved to the County data center.

Goal: Transfer all YLN equipment from the Prescott Public Library to the County Administration building.

Project Lead: Corey Christians

Progress:

- Ensure e-rate applies to the new line
- Get YCFLD BoD approval to purchase the line
- Work with Century Link to set a date to install an Internet line at Fair St.
- Make YLN members aware of the transfer date
- Let the media know we will be down that day
- Coordinate with facilities to move the equipment
- Coordinate with MIS Networking to reconfigure networking equipment
- Transfer equipment from PPL to Fair Street
- Bring the systems back online
- Verify equipment is still working

Priority Seven: SirsiDynix Supported Servers End-of-Life

After a certain amount of time vendors will no longer support hardware because it is considered outmoded. In other words parts become hard to find because they are no longer manufactured. Our servers will have this problem as of May 31st, 2016.

Goal: Have a solution in place to deal with outmoded hardware.

Project Lead: Corey Christians

Progress:

- Determine differing solutions to the problem considering we may be on a new ILS in two years.
- Present the solutions to the Executive Committee
- Present the solutions to the Steering Committee
- Analyze which option is superior based on cost and stability
- Purchase any equipment that is required
- Migrate data and go into production

Priority Eight: SirsiDynix Maintenance Bill

One of the annual events I have to complete is to make sure our SirsiDynix maintenance bill is accurate and to assist in getting it paid.

Goal: Make sure the SirsiDynix annual maintenance bill accurate and that it gets paid.

Project Lead: Corey Christians

Progress:

- Receive a list of all items under maintenance from SirsiDynix
- Verify the items there are appropriate
- Verify the amounts being charged have not exceeded the amount agreed to in the contract
- Receive an updated list from SirsiDynix with all of my changes incorporated into it
- Verify my changes have been incorporated
- Have an invoice sent to YCFLD
- YCFLD Board approves payment

Prioritization

Priority Nine: Implement Blue Cloud Cataloging

Blue Cloud Cataloging will allow library staff to access Symphony cataloging from a web browser. The new product should have significant user interface improvements above the cataloging section in Work Flows.

Goal: Fully implement Blue Cloud Cataloging (BCC)

Project Lead: Chanel Wheeler

- Upgrade Web Services so we can use BCC
- Configure Web Services for the new service
- Test BCC to see how it works
- Create documentation
- Activate it for a test library to see how it works in a production environment
- Conduct a training session for all YLN users
- Activate it for the remaining libraries

Priority Ten: Upgrade RPA

RPA is using an old version of Windows which will be no longer supported very soon. The current version of RPA is not supported to work on a newer version of Windows. Our RPA has also not received an update from SirsiDynix since we migrated to Symphony five years ago. SirsiDynix has committed to updating the product.

Goal: Get the new version of RPA working

Project Leads: Jim Lowman

- Obtain a new Windows server license
- Install a new virtual server for RPA
- Sign the NDA with SD so we can install RPA
- Have SD install the new version of RPA
- Test RPA to make sure it still works
- Add all the existing authentication resources
- Go Live with the new RPA
- Update any web links if necessary

Completed Projects CY15

- Value of Services for YLN
- Add MUHS
- Complete overall strategic plan
- Upgrade CircIT NXT
- Create OPAC Enhancements
 - Make it so the UPC retrieves cover art
 - Make it so ICat1 displays item format
 - Make it so second UPC shows cover art
 - Make it so the book river shows cover art
 - Determine if online registration is feasible
 - Fix reserve item searching for YCV
 - Add icons for ICat1s that don't have them
 - Add (item) details button to search results
 - Add the ability to add local cover art
 - Always have location listings expand
